Just One Thing:

Plot That Plastic

Help us reduce plastic pollution by mapping plastic tree guards. With more trees than ever being planted, tree guards have been used to protect and support growth. The problem comes when these guards are not removed, and are left in the environment. We need your help to locate the tree guards so we can make plans to remove them in future and facilitate new specialist recycling hubs.

How to take part:

1. Scan the QR code
2. Download the survey 123 app or open on your browser
3. Start plotting your plastic tree guard sightings

Please do not remove any tree guards you see, they may be protecting the tree from damage or be on private property. We will work with landowners and volunteers to remove tree guards in the future.

A poster for "Plot That Plastic" with a light blue background. It features a row of green trees in the middle. At the bottom, there is a QR code and a small tree icon.
